DEAD SEA SCROLLS
THE EXHIBITION

OPENS MARCH 10

Discover over 600 ancient artifacts and catch a rare glimpse of the priceless 2,000 year old scrolls.

In partnership with

California ScienCenter
californiasciencecenter.org
Come discover the most significant archaeological find of the last century—the Dead Sea Scrolls. This special exhibition explores the science and significance of the Dead Sea Scrolls, manuscripts written and hidden in caves 2,000 years ago and not discovered until 1947. Featured will be 10 selections of the Dead Sea Scrolls including the oldest known copies of the Hebrew Bible and some never-before-seen scrolls.

Through multimedia and science exhibits, guests will learn about the scientific and technological methods used to date, decipher, and preserve these cultural treasures for future generations. Additional highlights include a 3-ton stone from Jerusalem’s Western Wall, limestone capitals from the first temple period (1000-586 BCE), Ossuaries from the early Roman period, and an ancient signature preserved for millennia on the Archer Seal.

Enhance your experience with Jerusalem 3D in IMAX®!

OPENS MARCH 10

Soar high above the ancient city of Jerusalem—a city of many religions and an important crossroads of civilization. Through breathtaking aerial footage, eye-opening personal stories and remarkable historical perspective, Jerusalem takes viewers inside the heart of the ancient city in ways never seen before.

This inspiring film features exclusive footage that will take you to the Western Wall, the Church of the Holy Sepulchre, the Dome of the Rock, the Jordan River, the Sea of Galilee and the mountain fortress of Masada.
